Gaggle: Kingston

Tune: The Addams Family

Date written or updated:

Addam's Family Condoms

(Should be done lighthearted and over the top - like the teachers out of the room)They're latex and they're rubber (Everyone hold one up and stretch it)

They'll help you like no other

Don't use them? What a nutter!!

It's condoms now for me

(Addam's family noises here)

v2) They just aren't controversial

They don't need a rehearsal

Without them - no reversal

It's condoms now for me!

(Addam's family weird imitations here)

v3) No condoms? What a rookie! (Make stay away gestures)

It's icky and it's ooky

Not using them is spooky

And AIDS may come for me!

(Addam's family noise)
