

Lyrics by: Rose DeShaw

Gaggle: Kingston

Tune: Let The Rest Of The World Go By

Date written or updated:

AIDS Is Us

AIDS, we used to say
Was a thing far away
Affecting only strangers, (well, maybe Africa)
And now we see
It touches you and me
AIDS is down the street and in our homes
Like polio someday
We'll see it go away
Healing meds to cure the folks we love
'Till then we're here to cheer
Researchers far and near
And help the rest of the world to see!
