

American Health Care System

Description

When someone who is working goes off sick
And they can't afford a doctor real quick
Then the family does the care
Takes off working to be there
Whamo goes our labour force, down in a tick!

If we're looking for a good economy
Then we need some healthy workers, dontcha see?
We'll all make bigger bucks
When our health care doesn't suck
*Single user pay's the plan for you and me
