

Anthem for Women

Description

O-oh, say there's no way, women get equal pay!
When we do get the job,
single moms aren't promoted.
Birth control is now safe,
under Roe vs. Wade,
Will the rights we have gained
be so quickly out-voted?
We're not going back there,
to the times of despair!
Revolution will start,
if our law has no heart!
No hangers, no back alleys!
No welfare mothers' children starving!
No man's policies or creed
will make us again slaves!
