

Bad Border Laws In The Desert

Description

What shall we do with the injured mother?
What shall we do with the fallen father?

What shall we do with their thirsty child

In the desert dying?

Leave them there and just ignore them? (Sung in tones of disbelief)

Pretend weâ??re islands, despite the poet?

How can we not be diminished?

If a single one lies dying?

CHORUS

If thatâ??s the law, then the law needs changing

If thatâ??s the law, then we need some new ones

If thatâ??s the law, then the lawâ??s illegal

We wonâ??t let them die there.
