

Canada Was For Peace

Description

You can find someone singing this on Youtube. Vancouver sang it to another tune as well and I don't know what that was. You can always call me up and I can sing it to you over the phone. This original tune is easy & catchy.

Up in Canada
You could flee the war
Peace was practiced everywhere
They said, in Canada.
In the USA,
When the war was on,
We could start again
Up in Canada.
So, many left their homes,
I was one who came
Seeking for the peace that lived,
Up in Canada

Now in Canada,
Listening to the States,
Missing from this government
Is any talk of peace.
In the USA,
Wartalk going on,
Drafting of their young,
I've heard it all before.
But where is hope to be?
If Canada spurns peace?
Let's go back to where peace lived,
Once here, in Canada.
