## **Chinga la Migra**

**We don't want Palantir 's nose in our lives**

**Not our phone calls, or schooling**

**or the messages we send our friends**

**Not our travels, or our browsing,**

**or the books we—like to read**

**We must stop Palantir**

**Stop them today!**

**We must stop Palantir**

**Stop them today!**

**Chinga la migra**

**That means Screw ICE**

**Shout with meaning**

**And conviction**

**No we don't have to be very nice**

**Cuz they torture, abuse children**

**Palantir helps, Every day!**

**Chinga la migra**

**Is what we say!**

**Chinga la migra**

**Screw ICE today!**

Palantir (data mining company) co-founder Peter Thiel says the “patriotic” thing to do is for tech to serve U.S. military interests. ICE has large contracts with Palantir and uses the

company's software to track undocumented immigrants.
