

Climate Woes

Description

Chorus

Don't it always seem to go,
That green energy moves too slow,
We need clean power from wind and sun,
A future that's healthy for everyone.
We've got the wind, the sun, the light,
Let's make the shift and do what's right.

They're drilling deep, the earth they tear,
Pipelines cross lands, pollute the air.
We need a cleaner future, no oil to burn,
The planet's on fire—will we ever learn?

Glaciers are melting, forests are fire,
But the leaders just talk, making us tire
They promise the change, but fail to deliver,
It's time to act, not stand and shiver

Hey Canada, it's time to rise,
Let's heal the earth, open our eyes.
No more pipelines, no more greed,
Fight for the future, for the earth we need.
