

Commonsense Sex

Description

1) O you think about romance
O you think about love
Then your brain goes ga-ga
And your mind turns mauve
So before it gets heavy
Think about whatâ??s next
Think about a little condom
If youâ??re thinking sex

CHORUS

Bye bye fear
Bye bye circumstance
Hello, Iâ??m in charge
Not takinâ?? a stupid chance
Iâ??m usinâ?? my commonsense

2) O he doesnâ??t want a condom
To express his love
And he knows nothing will happen
â??Cause youâ??re so in love
Just show him where the door is
â??Cause it just ainâ??t right
When itâ??s youâ??ll have the baby
Him thatâ??s out all night

CHORUS

3) In the old days, babies
Burdened young lives down
Before they were ready
To settle down
But now, see, with condoms
No need to fear
Safe sex is the best sex
Theyâ??ve invented, dear

CHORUS

3) So you say you wanna travel
Go and see the world
O you wanna do great things
All the tales youâ??ve heard
If youâ??ve gotta little condom
Other sex tips how
You can build yourself a great life
and it starts right now!
