

Demography vs. Democracy

Description

Israelis have a terrible problem
And theyâ??re told that it will extinguish them

Itâ??s called demography; they donâ??t know what to do

And so democracy is now their problem too

Itâ??s called demography; they donâ??t know what to do

And so democracy is now their problem too

Demographically the situationâ??s this
The Jewish nature of Israelâ??s at risk
Because the birthrates simply arenâ??t matching up
To keep the population Jewish enough

And so maintaining a majority of Jews
Is an effort that is fated to lose

The Palestinians are standing in the way

Of Jewish Israel and so theyâ??re made to pay

Jews all around the world are going gray

At the ethnic cleansing carried out in their names

Jews all around the world are going gray

At the ethnic cleansing carried out in their names

The Holocaust was a crime of genocide

And such horrors we no longer can abide

Nevâ??r again refers to each and every one

Every mother, father, daughter and son

Nevâ??r again refers to each and every one

Every mother, father, daughter and son
