## **Ding-a-ling-a-lings Holding Office!**

(Brackets indicate where you could put your own stuff to make it work for some right you're losing locally\_

When they wipe out

[The Com-mis-sion

Of Human Rights]

That's a wakeup!

Just think of

The stink of

A [province]

With no [ human rights]

Bells should toll

In our very souls

When we hear it!

Pardon me

But you see

We need

Integrity

Here in [B.C.!]

V2) When they said

'Well, it's dead'

'Fill our pockets

Instead'

We should listen.

When the [rights

Of us humans]

No longer

Are fought for

And won

Bells should ring

'Ding-a-ling-a-lings

Holding office!'

Pardon me

But you see

We need

In-teg-rity

Here in [B.C.]!

> >Could use little bells for last song when you say, ding a ling, etc.
