

Dont be a Private School Dunce!

Description

Hey, there, worried Mom
Want the very best for all your kids?
Look, your local public school can give you all of that – Not private!
Hey there, with your kids
High-fees no criteria of excellence
Private school doesn't have the whole shebang! – not even the clothes they wear!
Okay, you're school shopping but let's get real for once
Don't be a private school dunce!
Hey there, get involved
Help our public schools from deep inside
Life is a reality, you can't always run away
Don't be so scared of changing what you see wrong
It's time for getting in there yourself – you're needed
USE KAZOO'S HERE FOR THE SHORT INSTRUMENTAL BREAK
Hey there, parent's all
Education's tough but so are you
Bring out all the smarts you've got and oh, what a change could be
The world would see – some new public schools
(Hey there, taxpayer)
Wake up with our schools
(Help out with our schools)
Come on, save our schools
Fade
Hey there public schools
Let's help public schools
