Equal Pay

Here comes another pink ghetto
Women worker's pay is low
Hippety, hoppity, gotta get in line
Government says, 'not today,'
Equal work for equal pay

Paying women workers less aint fine!
They're stalling about giving
Women workers what they're due
They've paid us less for all these years

It isn't really new
Lots of pay's owed pensioners
Shall we spend our golden years
Hippity, hopping to the food bank line?
