

Equal Rights

Description

In this new millennium, we vow
That equality for women will start now
No one's labour going cheap
Every child a trust we keep

We are resolute, We will get there, somehow
So my sister, let us go today
Taking every opportunity to say
Whether third world or free

Equal rights for you & me
As we raise our families, we earn our pay

Chorus:

We've got the hope of the world
In our two hands, every woman
And the only resolution we can find
Is for woman to stand, strong & free as any man
In our two hands lies the hope of the world.
