

## Food For Thought

### Description

What am I eating? I don't really know.

No one will tell me.

I think it's GMO

Farmers are growing

Strange and tainted food

What is it doing?

They don't have a clue.

2) Cross-pollination

Screwing up the works

Monsanto's chuckling

They all think we are jerks

Counting their profits

Rub their hands in glee

Soon there'll be nothing left

That's GM free.

3) Governments help them

Funding their research

Their reputation's super

Weeds besmirch

Who really cares about

Our children's health?

Or is it just about

Amassing wealth?

4) We can fight back

Organic local food

Write to your MPs

Tell them what is good.

Avoid disaster

Act before it comes

Stand firm for safe food

Show them we're not dumb.
