## **Fracking CEO's Song**

I'm in the mood to frack  
Simply because I'm greedy  
Honey, 'cause when we're greedy  
Who cares what others lack.

Who cares if earth should quake  
Water forever dark brown? Though  
values go down in YOUR town  
I'm in the mood to frack.

Why stop to think of whether  
Earth may dry up and bake  
That problem is another's  
I'll be gone then  
Meantime I'll take.

Who cares what problems track,  
If water is poisoned forever  
That's not my care - no, never  
'Cause I'm in the mood to frack.

(Note: Sing slowly and lovingly.  
The note for Though is the same as for brown.)
