

## Get Out and Vote

### Description

Last night some new thoughts did surround me  
When thinking of heroes of old,  
What they fought for does really astound me,  
They were so brave and so bold.

The men said that women weren't able  
To think or to make up their minds  
So men would make all the decisions  
And leave all the women behind.

#### REFRAIN:

Rise up, sing out  
On matters that matter to you and me!  
Sign up! Get out and vote  
And we'll make a difference, you'll see!

Some brave women in our communities  
Refused to be quiet and meek  
They struggled to gain opportunities  
To work and to vote and to speak.

Our Susan B. Anth'ny and others,  
They spoke and they marched and they wrote,  
Saying women must be treated fairly  
And they must be allowed to vote!

#### REFRAIN

Now many long years have transpired  
Since brave women won us a voice  
They worked and they struggled together,  
So we'd have a vote and a choice.
