

## Glad To Recycle My Lunch

### Description

The time of all green things has come to our land  
We're all pretty stoked since there's something to hand  
That we can do, not just worry and weep  
We can do them today before going to sleep!

#### CHORUS

I am so glad to recycle my lunch  
I've got a hunch  
There is a bunch  
Of things like this I can do everyday  
Watch me recycle away!

2) My grandma had sayings about how things go  
Taking stitches in time, counting chickens and so  
I know the old ways taught recycling long  
Before I was born and was singing this song!

#### CHORUS

I can fill boxes with bottles and cans  
Not toss them out  
There is no doubt  
That if we all recycled our things  
We'd hear our planet sing

3) O those old sayings, so many I know  
About being thrifty wherever I go  
The wisdom of old times can help us today  
Yet recyclings a word I did not hear them say

#### CHORUS

I am so glad our elders were wise  
Knew that life comes  
In all sorts of size  
Didn't have much  
But learned to make do  
Lessons for me and you
