

God Bless Our Planet Earth

Description

[intro] We are all related on the land and sea
and we all are yearning to be safe and free
Let us show our reverence for this world we share
As we raise our voices in a song and prayer:

God bless our Planet, Earth,
world that we love
Let all creatures, and people
Live in peace, like in heaven above
Bless the continents, and the islands
And the oceans, white with foam
God bless our Planet, Earth,
our home, sweet home
God bless our planet, Earth
our home, sweet home!
