## **Gotta Change the System**

So.....th' system didn't work so well...It didn't catch the crooks....  
Even looked the other way for years  
While Madoff cooked the books!  
Madoff....made off with 50 billion  
In his Ponzi schemes.....  
We gotta change the system  
To foil crooked dreams.

Th' economy and the markets  
Are not cast in stone....  
Not geologic crystals...  
Unchanging.....stand-alone....  
They're systems that were designed by men  
That need an overhaul....  
We can create another one....while  
This one goes.....over th' waterfall!
