

## Handling Christmas Pain

### Description

Sadly, this song is a lifeline to those struggling with years of hard times at Christmas. There are many definitions of 'home.' For those who desperately need this song, the title of the original will forever be a threat.

All those drunken Christmases  
All those years of pain  
We can put behind us now  
Not visit them, again  
You and I are grown now  
We can find a way  
To keep those drunken Christmases  
From killing us, today!
