

Hey, Dudes (anti-nukes, directed toward the new bomb factory at LANL (Los Alamos National Lab))

Description

Hey, dudes, stop making nukes!
Got too many â?? we sure donâ??t need any more
Stop selling destruction, horror and gore
Time to turn back from the brink of a world war

Hey, dudes, try doing good
Side with life, now, and make it better
Youâ??re spending a vast amount of our cash
working to blast us to ruin and slaughter

You make up crises based on lies, you demonize
to have an excuse for bombing nations
So stop this reckless march to war weâ??ve seen before
consider the tragic implications

Hey, dudes, abolish nukes!
Find a good use for LANLâ??s brain power
Remember, all life on earth is at stake
When will you wake to this urgent hour?
