Tune: Hey Ho Nobody Home

Date written or updated: 10/2013

Hey Hey, What's Going On? (Anti-coal version)

Hey! Hey! What's going on?
Things are going awfully wrong...

Chorus

**We have got to get together.
Hey! Hey! We can do better.**

Shame! Shame! when we don't stand
against the wrongs across our land...**Repeat Chorus**

Here's a cause that needs supporting
There shouldn't be any coal exporting...**Repeat Chorus**

Our government is selling us out
About this scam we need to shout...**Repeat Chorus**

Dirty coal in the ground should stay
Diggin it up's too much to pay...**Repeat Chorus**

Corporate greed is killing us all
Most corporations need to fall...**Repeat Chorus**

They're sending coal across our land
Spreading coal dust as fine as sand...**Repeat Chorus**

Shipping coal to China makes us cuss
Bad for them and bad for us...**Repeat Chorus**

Using less energy is a start
renewable sources the better part...**Repeat Chorus**

Final Verse and Chorus Sing as a Round - sing 2 X (1st grp hold last note)

Here's a cause that needs supporting
We don't want any coal exporting...**Repeat Chorus as part of the round**
