

## Homeless Puff (2018)

### Description

Puff the Magic Dragon no longer has a home,  
Through the streets of Rochester he must sadly roam,  
He lived in the subway tunnel 'til developers bought the land  
Moved to the courthouse garage but Maggie locked him out.

He tried the shelter system and fled all full of fright  
This fire-breather felt more safe in a tent at night  
Mayor Lovely Warren ordered his tent bulldozed  
Spectrum wants him out now but where will he go?

Puff is but a fantasy but not so human beings  
All need homes to live in just like you and me.  
Not tent villages and shelters that just can't meet their needs  
For protection from the elements, safety and privacy.

No more gentrification we need a housing plan  
Housing First for everyone on this we take our stand!
