## **I Am Waiting**

I am waiting, I am waiting I've been patient and quiet and good  
Oh so patient: I've done everything that I should.

I am waiting, I'm still waiting  
Getting madder and sadder and blue.  
Tired of waiting — I don't want to stay and catch the flu.

Maybe all I need is a helping hand  
Maybe all I need is my meds  
Can't you help me get  
out of this place  
I don't want to fill  
one of your beds!

We need health care, people's health care  
We need clinics and nurses and docs  
We need health care  
And we need it without sticker shock!
