Insufficiently Poor

Mary looks after her mother, Three kids and her sick husband, John.
When she has to pay for their medicine
Most of her paycheque is gone.
She's become medically poor, yes,
She's become medically poor.
She has to pay for their medicine - so
She's become medically poor.

We're scared that the time is a-coming,
When medicare will be no more.
When only the rich will stay healthy
And we will be medically poor.

Yes, we will be medically poor, yes,
We will be medically poor.
Only the rich will stay healthy
And we will be medically poor
