## **Let's Remember Chernobyl**

Let's Remember Chernobyl  
Tune: Let's Remember Pearl Harbor  
Lyrics by Nancy Goedert

Let's remember Chernobyl,  
Fukushima, Three Mile Island.  
There are other near misses  
In Russia, England and Canada.

They want to build more nuke reactors  
Instead of safe green energy  
Let's pretend that we're sane and  
spend those billions to build clean, green.
