Make It Single Payer

There's many out of work, Health insurance lost.
Let single payer fix it,
It's not too big a cost.

So: Make it single payer!
Hey, Congress, try again!
Give health care to all people
In the year two thousand ten.

We've been used, abused, ignored,
The profit's at the top.
So many with no insurance,
This scam has got to stop!

So: Make it single payer!
Hey, Congress, try again!
Give health care to all people
In the year two thousand ten.
