

## Monsters In Our Bodies

### Description

( On: Genetically Modified but unlabeled food)

Frankenstein â?? was a monster

Put together â?? poorly made

GM science â?? give our food now

Far more danger than old Frankenstein displayed!

2) Building monststers- in our bodies

Altering â?? genetics there

These mad scientists donâ??t know now

Long term ends of all these foods

Weâ??ve come to fear

3) While weâ??re taking â?? medication

Science fiddles â?? with our food

Could be lethal â?? combinations

We donâ??t know â??cause nothingâ??s labeled as it should.
