

Lyrics by: Rose DeShaw

Gaggle: Kingston

Tune: Most Wonderful Time Of The Year

Date written or updated:

Most Difficult Time of the Year

It's the most difficult time of the year
With the memories coming
And crowds all succumbing
Where everyone tells you to
Be of good cheer
It's the most difficult time of the year

It's the hard-hardest season of all
Boozy get togethers and fighting the weather
Temptations will call
It's the hard-hardest season of all
But there's meetings to go to
And others to talk to
No need to stay out in the snow
There'll be advice for livin'
And life stories given of
Christmases long, long ago

It's the most difficult time of the year
When your memory's paining
Your struggles are draining
We've been there, my dear
It's the most difficult time of the year

But there's meetings to go to
And others to talk to
No need to stay out in the snow
There'll be advice for living'
And life stories given of
Christmases long, long ago

It's the most difficult time of the year
When your memory's paining
Your struggles are draining
We've been there, my dear
It's the most difficult time
It's the most difficult time
It's the most difficult time
It's the most difficult time of the year!
