

## My Unfavorite Things

### Description

Affordable health care has gone off the charts,  
Oligarchs, Billionaires have tiny hearts  
What can we do to set the things right  
Our power is voting, Stand up for our rights

The East Wing is gone and is lying in rubble,  
Time for us all to go look for good trouble  
ICE agents roaming our streets like goons  
Democracy could be erased really soon

Groceries higher, Trump's a liar  
Who sleeps and farts at work  
He must get his rest up in his golden room  
To wake up and tweet. He's a jerk!

Grandpa needs medicine that he can't pay for  
Grandma can't buy any meat at the stores.  
Internment camps springing up like weeds  
Is this the answer our country needs?

Brown and black folks disappearing from streets  
People at food banks 'cuz nothing to eat  
Trump's name on buildings that he doesn't own  
Pay him some money, he'll throw you a bone

Disbar Bondi! Impeach Hegseth  
Who shoots at boats for fun  
Impeach the whole cabinet and Donald Trump, too  
Help this country turn to BLUE!
