

Our Power Could Be Clean & Cheap!

Description

Our power could be clean
and cheap, although TEP tells us lies and schemes
to make us think it must keep burning fossil fuel
to de-pendably keep us cool!

It's a travesty-y-y
that TEP ignores the solar energy-y-y
that falls upon us every day, and since it's free
would lower rates for you and me-e-e.

Shaboom, Shaboom! They don't talk about the new batteries!

Shaboom, Shaboom! With four day re-lia-bil-i-ty!

Life's never a drea-eam.

But it's insane for us to have to pay extreme
profits to TEP's wealthy investors
while they ignore our desperate screams!

Public Power's what we-e-e
should replace TEP with! That way you and me-e-e
will have much lower rates and our electricity
will come from solar en-er-gy!

Shaboom, Shaboom! We must stop this wealth transfer!

Shaboom, Shaboom! Stop paying TEP investors!

Public Power means that we-e-e

will own our very own electric company-y.

We won't be sending even one single penny-y

of profit to an any body !

Shaboom, Shaboom! A Public Power utility!

Shaboom, Shaboom! A Boost for LOCAL economy!

Tell our Mayor and Council

that we want Public Power on the ballot this fall!

So there can be a vote by every one and all

We can't afford more TEP stall!

SHABOOM, SHABOOM! THE CLIMATE CRISIS LOOMS!

SHABOOM! SHABOOM!

WE NEED PUBLIC POWER! RIGHT NOW!
