

Pass Medicare For All

Description

Healthcare is a human right

Without it we may die

Insurance is a dreadful fraud

It makes the angels cry

U.S. healthcare on the fritz

And you may know why

(CHORUS)

Come on, Congress now

We all need healthcare

Everybody get together

Pass Medicare For All right now

Without her meds and treatment

She will surely die

Choose healthcare or food

And kiss your ass goodbye

No one should live this way

Can't you hear the people cry

(CHORUS)

If you've had a claim denied

You will understand, listen

Insurance is a useless gift

One we cannot stand

Healthcare and profit do not mix

The people need a hand

(CHORUS 3xs)

Right now

Right now
