Tune: No Business Like Show Business

Date written or updated:

Seed Business

There's NO business like seed business, like no business I know
Such a little miracle a seed is
Kernels can contain a 10 ft stalk
Once they could be saved & planted over
Traded for clover

But now they're locked
Into bad business in seed business
Monsanto, Bayer & Dow
But there's the farmer's union

Which will NEVER fold
Nor leave the farmer out in the cold
Nor deregulate the system for a sack of gold
Let's get into their show

And make this show a GO!
