Tune: There is a Tavern in the Town

Date written or updated: 9092018

Stop Kavanaugh NOW!

NOTE: We sing the melody of the original verses only (not the chorus).

There was a time in days of old [days of old]

When justice mattered, so we're told [so we're told]

(But now the) corporations own our Supreme Court

(So say good)bye to women's freedom to abort.

We won't be saved by Roe v Wade [Roe v Wade]

Not even if we're force-a-bully laid [we're afraid]

(A-nd) you can bet that our health care Safety Nets

Will be stolen from us if they've not been yet.

Environmental regs will go away [go away]

And the First Amendment will become passé [Oy vey!]

(And there will) be more guns to threaten our loved ones

Now the Court's been purchased by the N-R-A.

We used to think that we could just appeal [just appeal]

To a court where we could get a good fair deal [an honest deal]

(But now we're) fighting for our lives, and if we're to survive,

(We've got to) stop this nomination — STOP IT NOW!

It's a gross abomination — STOP IT NOW!

For the future of our nation - STOP IT NOW!
