

The Body Song

Description

Everybody has a body
Comin' through the door
Here's a question 'bout a body
What's a body for?
I'm the one inside my body
I know how I feel
It's health and strength and joy in life that
Make my body real.
Leave your Botox in the box
Your silly, silly –cone
I can lift my face with smiles
You leave my bod alone!
My friends come in lots of bodies
Varied in design
Oh bless the day you love your body
Just like I love mine!
