

The Human Race In One

Description

Koran, Torah, Upanishads and OM
The holy work by any name
Says all of us are ONE
We may look very different
And speak in different tongues
But let us not forget the truth
The human race is one.
V2) Some beliefs are written down
And some passed on by word
To say, "I'm right and you are wrong!"
Is silly and absurd
Truth has as many faces
As an onion has its skins
Truth's been found by every race
There is no one race that wins!
