The Rental Seed Folks

The rental seed folks
Are lobbying hard

Control the seed and

You've got the whole yard

Life patenting regimes

Just some of their grand schemes

A family farm is

Just feathered & tarred

Public plant breeding

Could still save the day

No private interests

Should get in the way

So if you write a little letter

Or 2 or 3 or 4 (Or even MORE)

For farmers

To help save their seed!
