

This Climate's Yours, Green New Deal's Mine

Description

v. 1 This climate's yours
This climate's mine
Across all boundaries
And border lines
In any weather
We work together
This climate depends on you and me.

v.2 As I go walking
The halls of Congress
At times it seems
Completely hopeless
The fossil lobby
Has so much money
(Still) we know it depends on you and me.

v.3 But the sun keeps shining
And the winds keep blowing
And Green New Deal foes
We keep opposing
Forces are shifting
People are listening
The Green New Deal can be reality.

v.4 This climate's yours
This climate's mine
Across all boundaries
And border lines
We'll work together
In any weather
This climate depends on you and me!
This climate depends on you and me.
