

War Crimes

Description

If someone bombs a neighborhood
It has to be understood
That civilians will be in the path
Of their bombs,
Their firebombs,
Their cluster bombs,
Their deadly bombs,
Those civilians will die
From those bombs
In 1945, from Nuremburg
Around the world this vow was heard
Never again to close our eyes, to war crimes
War crimes
War crimes
To everyone this law applies
Never again to close our eyes
To war crimes
We're telling you this is the time
For human rights in Palestine
Checkpoints, siege, and a-part-heid
Can't go on
President Obama, please
Don't keep a people on their knees

Never again means every single

Human being
