

We Can Take The Night

Description

If we take care of each other
Sister, daughter, friend and mother
Talk and smile with one another
We can take the night

2) Gay and straight should walk together
Any time and any weather
Leaving fear behind forever
Let us take the night

3) Put the fear behind us
It's a chain to bind us
Let's united to take the night
Replacing others hatred with our kindness

4) Wheelchair, zimmer, walker, runner
Winter, spring and fall and summer
Going out in growing numbers
We can take the night.
