

What Do We Want from Obama?

Description

**What do we want from Obama, The man we'd like to love?
We're here to tell you what we wrote
To him on change-dot-gov:**

**We want our troops brought home real quick
And all the wars to cease,
Cause bombs and occupation
Are not the way to peace.**

**We want fair and equal treatment
For folks both straight and gay,
And an end to corporate bailouts!
Those with the most should pay!**

**We want single-payer health care,
Or else you'll hear us rage,
And jobs that stay right here at home
And pay a living wage.**

**Restore our civil liberties!
We don't know where they went!
And an end to the label of terrorist
For those who dare dissent.**

**Stop the use of torture.
Justice must prevail!
But here's the thing that we want most
Cheney and Bush in jail!**

**That's what we want from Obama,
It must be our demand!
To set our country right again,
Put Cheney and Bush in the can!**
