

When Civil Rights Belong To All

Description

WHEN CIVIL RIGHTS BELONG TO ALL

Tune : When the Saints Go Marching In

When civil rights belong to all
When civil rights belong to all
We will make our nation better
When civil rights belong to all

Now women's rights are human rights
and racial rights are human rights
All religions, ages, and genders:
for them all we're going to fight

Our immigrants and refugees:
we've got to listen to their pleas
They have come here seeking refuge
Let us treat them all kindly

Treat everyone with dignity
and let's get free from bigotry
Let us heal all forms of division
Let's have real equality

Equality means everyone
It means we leave behind no one
We will end all forms of injustice
Dignity for everyone!

When we make peace with Mother Earth
and when we stop abusing her
she'll repay us with abundance:
And we must allow re-birth

When we make peace with everyone
and when we ban all bombs and guns
we will be the greatest winners
'cause it's peace we will have won

In common good we must invest
The good of all is what we stress
We all win, and nobody loses
We're all blessed when all are blessed

When every vote counts equally,
And MAGA rule is history
weâ??ll have free and fair elections
Weâ??ll restore democracy
