Tune: What A Friend We Have In Jesus

Date written or updated:

Who Has The Right?

Men in suits and funny neckties
Are legislating women's rights

USING illogic and emotion

To say it has to do with life

Defining what is meant by 'baby'

Decreeing when this life begins

If only we could see them pregnant

Would be a different story then

2)

Why are they making war on women?

Telling our bodies what to do?

Perhaps their other war goes badly

They want to start up something new?

Except this choice fight is an old fight

Goes back so many years before

When women won the right to say just

What we would use our bodies for.
