Who Owns The Sky?

All the stars have names up in the sky
From the ancient times gone by
Will we name the warheads too?
One for me and one for you?
CHORUS

O who is it owns the sky?
Who can put the bombs on high?
Is not there someone who can say?
Children, we don't play this way?

2) First star's a wishing star, they say
Make your wish as fades the day
Then your wish will sure come true
'No bombs in space,' I ask, I do.
CHORUS

3) Let us claim the sky for all
Nations big and countries small
No bullies with their reasons why
To bring us peace, they must ARM the sky?
CHORUS
