

You've Got to Change!

Description

You've got to change your evil ways, Congress,
Or the people will stop voting for you.
Remember you work for us, Congress,
Not for the money that is backing you.
You had us voting, donating, text-banking for you.
You got elected with your talking but you never come through.
This can't go on!
Lord knows, you've got to change.

We want the "For the People Act", Senate.
We want the money out of politics too.
We want to mail in our ballots, Congress,
The same way that you guys do.
We won't be standing and waiting in long lines all day,
You need to listen cause we didn't come here to play.
This can't go on!
Lord knows, you've got to change.

Here's what the people are saying, Senate.
Voter suppression has got to go.
You've got to ditch the Filibuster.
We can't have states overturning our votes.
Let's make it easy for voters to have their choice,
Help our post office by firing Louis de Joy.
This can't go on!
Lord knows, you've got to change.

We want a Green New Deal, Congress.
All earth's creatures are suffering so much.
While you keep spending, Congress
Trillions on war, weapons, killing and such.
We're getting tired of waiting as you fool around
While dirty pipelines pollute our rivers and ground.
This can't go on!
Lord knows, you've got to change.

Repeat Verse 1
